ISYS90050 IT Project and Change Management

Tutorial 5

Activity 1 Task 1: Identify travel origin

- A Melbourne location

Activity 1 Task 2: Travel from source to destination

- How might you travel?

Activity 1 Task 3: Individual estimate of travel time

- Estimated time and assumptions

Activity 1 Task 4: Scenarios

- Scenario 1 – You are travelling to the University to attend a tutorial (or) a lecture.
- Scenario 2 – You are travelling to the University to attend one of your final exams in the semester.

Activity 1 Task 5: Compare and discuss

- Any difference? Why?
- What additional situations considered?

Activity 1 Task 6: Test of estimate

- How?
- Can the estimate be improved?

Activity 2 Task 1: Expected Duration of Tasks

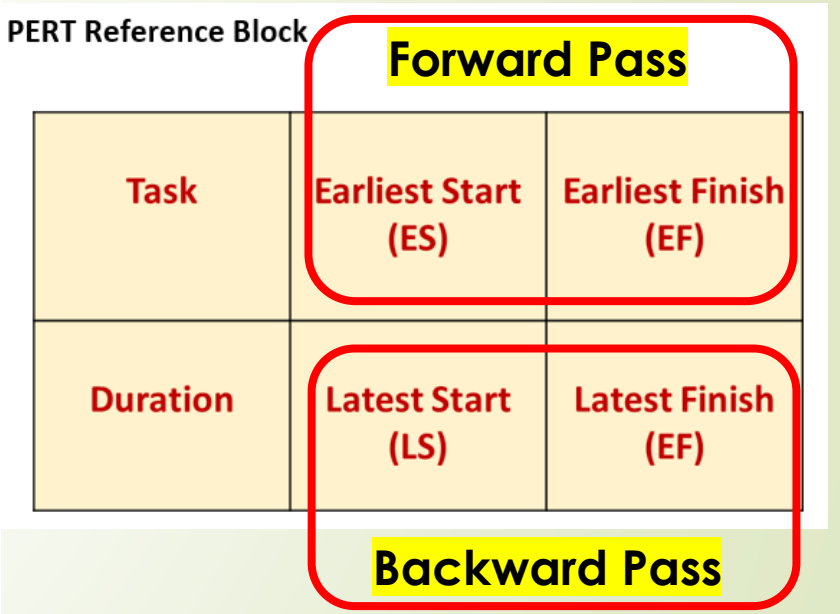
Task ID	Optimisitic Time (a)	Pessimisitic Time (b)	Most likely Time (m)
A	3	6	4
B	1	3	2
C	4	7	6
D	2	5	3
E	3	9	6
F	3	8	4

Expected time = (a + 4m + b) / 6

Activity 2 Task 2: PERT

Task ID	Description	Duration	Dependent on:
A	Prototype user interface	10 days	-
B	Design file structures	2 days	A
C	Define interfaces	3 days	B
D	Define/test compression algorithm	5 days	B
E	Define coding standards	5 days	-
F	Devise test plan	5 days	B
G	Prepare test cases and data	5 days	F
H	Review phase deliverables	2 days	C, E, G, D

START



END

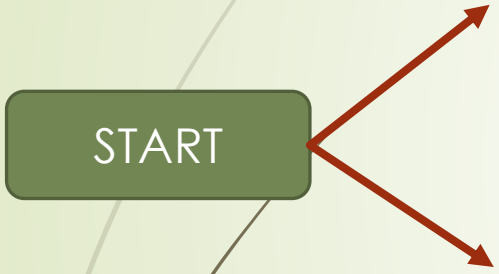
Activity 2 Task 2: PERT

EF = ES + time
LS = LF - time

PERT Reference Block

	Forward Pass	
Task	Earliest Start (ES)	Earliest Finish (EF)
Duration	Latest Start (LS)	Latest Finish (EF)

Activity 2 Task 2: Slack



END

PERT Reference Block

Task	Earliest Start (ES)	Earliest Finish (EF)
Duration	Latest Start (LS)	Latest Finish (EF)

Slack

Slack or float = LS – ES (or) LF – EF

Activity 2 Task 3: Critical Path Change due to Task Delay

- How will the critical path of the project get affected if Task C gets delayed by 3 days?
- Slack of Task C?

Activity 2 Task 4: Critical Path Change due to Task Delay

- How will the critical path of the project get affected if Task C gets delayed by 8 days?
- Slack of Task C?

Tutorial Quiz!

- You have 5 mins to complete the quiz
